IDENTIFIERS	*Texas

ABSTRACT

The document is the compilation of results from a questionnaire that was sent to all college and university library directors in Texas requesting information about services, equipment, and accessibility to their library facilities for handicapped students contemplating entering an undergraduate program or continuing at the graduate level at these institutions. The responses to the survey are listed alphabetically by institution and include the institutions's address and telephone number, the name of a contact person, and brief descriptions of the library's special services, special equipment, and accessibility. The questionnaire used to solicit the data is also provided. (JD)

Project funded by College and University Libraries Division of the Texas Library Association and North Texas State University.

INTRODUCTION

"College and University Library Services for the Handicapped Student in Texas" represents a cooperative effort by library and media center directors in completing a questionnaire which will hopefully be beneficial to handicapped students who are contemplating entering an undergraduate program or who are continuing on the graduate level. In their willingness to provide information regarding services, equipment and accessibility to the library facility, these directors are showing their continued support for Section 504 of PL 93-112--the Rehabilitation Act--which states in part that "no otherwise qualified handicapped person in the United States . . . shall solely by reason of his handicap be excluded from participating in, denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance." Specifically, the provisions insure nondiscrimination and equal opportunities for handicapped persons to participate in all education programs and activities.

The survey was sent to all college and university library directors in the state on June 1, 1978; a copy of the letter and survey are included after the acknowledgments. A reminder postcard of the deadline date was sent three weeks prior to August 31st. Another postcard was sent out after the closing date in an effort to include as many questionnaires as possible. The tabulations in the directory represent the written responses to the items requested in the survey as of October 31, 1978.

The responses to the survey have been recorded in the following format:

Name of College or University	Address and Telephone	Person to Contact for More Information

Special Services:

Special Equipment:

Accessibility:

If the respondent indicated that their "special services" did not differ from those already offered to nonhandicapped students, then these were omitted in the compilation. If the category of "special equipment" was omitted on a questionnaire, then it was assumed that no special equipment exists in this facility for handicapped students. Most libraries did comment at great length on the section regarding "accessibility" of their building. Responses to sections eight and nine of the survey reflected a variety of approaches to current problems in working with the handicapped and proposed changes in facilities. Some indicated that they had not encountered any problems whatsoever mostly because a handicapped population simply did not exist on their campus. Others felt that much more in the way of public relations needed to be done to advertise and attract their services and facilities to the handicapped students. A number of respondents emphasized that numerous problems, mainly in the areas of lack of equipment and accessibility, did exist and that efforts were being made to find a remedy.

The editor hopes that handicapped students in Texas and other states will benefit from the information in the directory, and that

perhaps others will use this directory as a model for gathering and determining service, equipment and accessibility needs for the handicapped.

ACKNOWLEDGMENTS

The editor wishes to recognize a similar publication published by the Ohio State Library, "Libraries for College Students with Handicaps," which served as a model for this survey. Thanks are expressed to both the College and University Libraries Division of the Texas Library Association and North Texas State University for funding the project. Specifically, thanks go to Gary L. Menges, Chairman, College and University Libraries Division, Barbara Jungjohan, Assistant Dean of Students, NTSU, and her staff, the News and Information Service of NTSU, Judith Miller, Mary Susie Stephenson, and Cathy Wilkinson in making this publication possible.

1 June 1978

Dear Director:

Over the past few years there has been an increasing awareness of the rights of the handicapped to participate in all aspects of our society. With the passage of the 1968 Architectural Barriers Act, the 1969 61st Texas Legislature - Senate Bill 111 (Vernon's Ann. Civ. St. art. 678g), and the 1973 Rehabilitation Act, all institutions receiving state and federal HEW funding must develop plans which are so designed to make facilities totally accessible to handicapped individuals.

Since more and more handicapped people are selecting to continue their education beyond high school, it is necessary to identify undergraduate and graduate institutions which offer <u>at present</u> facilities and services that will meet their particular needs.

The enclosed questionnaire specifically deals with college and/or university library services, specialized equipment and <u>existing</u> facilities to aid the handicapped student in Texas. Space is provided at the end of the questionnaire under #8 to comment on changes which are currently being considered to remedy any present problem.

This project has been funded by the College and University Libraries Division of the Texas Library Association and will be compiled into a monograph directory by the first of next year. As a participant in the survey, you will receive a copy of the directory for reference.

For the directory to be totally complete, it is essential that all questionnaires be returned by August 31, 1978. If there are additional branch libraries beyond the main facility on your campus, you may wish to duplicate the questionnaire for them to complete. A self-addressed, stamped envelope has been included for you to return the information.

Thank you for your time in this project.

Most sincerely,

James L. Thomas

QUESTIONNAIRE
for
College & University Library Services for the
Handicapped Student in Texas

1. Name of College or University: _____
   Name of Library: _____

2. Address of Library: _____
   (zip code)

3. Telephone of the above: ( ) ___-_____

4. Person to contact for more information: _____
   Title: _____

5. Special services provided by the library for the handicapped student:
   a. What provisions do you make for getting materials in braille or tape for the blind, visually handicapped or physically handicapped student who cannot use print?
   _____
   _____
   _____
   _____

   b. What special reference service do you provide to the students?
   _____
   _____
   _____
   _____

   c. Are any of the services listed below provided?
      1. assistance with circulation: yes ___ no ___
      2. assistance with the card catalog: yes ___ no ___
      3. assistance with materials which cannot be reached: yes ___ no ___

6. Special equipment provided for the handicapped student:
   What adapted equipment is available for their use? (Check those available)

___ a. large print typewriter
___ b. electric typewriter
___ c. shield typewriter
___ d. opticon
___ e. braille writer
___ f. magnifier
___ g. tape recorders
___ h. other (specify): _____
_____
_____

7. Accessibility for the handicapped student to use the library facility:
   (check if your response to the question is "yes")

___ a. Is there at least one building entrance at ground level?
___ b. Are doors 32 inches wide and do they open easily (with less than 10 pounds of pressure)?
___ c. Are there level thresholds to building and rooms?

___ d. Do you have a sloping ramp to building entrance (with grade less than 8%)?

___ e. Is there safe and accessible parking close to the building (8 foot space with 2 feet between spaces)?

___ f. Are there level walks with no curbs at crossways from parking area to library building?

___ g. Does the student have access to an elevator?

___ h. Are restrooms with wide stalls and grab bars provided for wheelchair users?

i. Are there

___ 1. handrails on all stairways?

___ 2. Do these handrails extend 18 inches beyond the top and bottom step?

___ j. Are there non-slip floors?

k. Are there

___ 1. lower fountains for wheelchair users? (Height for accessi-

___ 2. public telephone for wheelchair users? bility 30-36 inches)

8. Briefly list (a) some of the current problems you encounter in working with handicapped individuals and (b) any proposed changes to remedy these problems in working with the handicapped in the near future:

(a) _____

_____

_____

(b) _____

_____

_____

9. Please feel free to attach copies of any documents which describe plans to make library facilities more accessible; i.e., news articles, special committee reports, etc.

Please return this completed questionnaire to:
